1. Sign up /Login

Users need to create a Duty chart account to access the Duty chart Management System. A Duty chart account can be created in two ways: Self Registration and Registration by office admin.

To Create a Duty Chart account using Self Registration, please follow the steps below:

Step 1: Open Sign-Up Page

On the Login Page, Click Sign up and the registration form will open

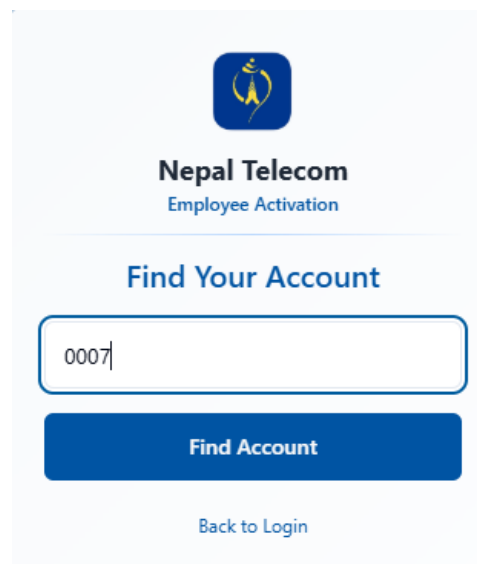

The image shows the login page of the Nepal Telecom Duty Chart Management System. At the top is the Nepal Telecom logo, followed by the text "Nepal Telecom" and "Duty Chart Management System". Below this is a "Login" heading. There are two input fields: the first contains the number "7302" and the second contains a masked password "*****" with an eye icon to toggle visibility. Below the password field are two links: "Remember me" with an unchecked checkbox and "Forgot Password?". A blue "Login" button is positioned below these links. At the bottom, there is a link that says "Don't have an account? Sign up".

Step 2: Enter Employee ID

The employee must enter their valid Employee ID. Enter Employee ID and Click Find Account.

The system checks the employee information from the official employee database.

The image shows the "Find Your Account" page of the Nepal Telecom Employee Activation system. At the top is the Nepal Telecom logo, followed by the text "Nepal Telecom" and "Employee Activation". Below this is a "Find Your Account" heading. There is a single input field containing the text "0007". Below the input field is a blue "Find Account" button. At the bottom, there is a link that says "Back to Login".

Step 3: Employee Verification

After verification, the system displays, the system will display Registered Mobile Number (partially hidden for security). Click Send OTP to Mobile to get the OTP in the registered Mobile Number.

The system sends an OTP (One-Time Password) to the employee's officially registered mobile number. After entering the OTP, Click Verify OTP.

The system validates the OTP. If OTP is Correct: Registration process continues. If OTP is Incorrect: Error message will appear

The image displays two screenshots of the Nepal Telecom Employee Activation process. The left screenshot shows the 'Verify Details' screen, which includes the Nepal Telecom logo, the text 'Employee Activation', and a 'Verify Details' heading. Below this, there is a form with fields for Name (Test), Email (test7@gmail.com), and Phone (9851129935). A blue button labeled 'Send OTP to Mobile' is at the bottom. The right screenshot shows the 'Set Password' screen, which includes the Nepal Telecom logo, the text 'Employee Activation', and a 'Set Password' heading. Below this, there are two password input fields (New Password and Confirm Password), a 'Working Office' dropdown menu, and a 'Designation / Position' dropdown menu. A note states: '* Password must be at least 8 characters long and include numbers and special characters.' A blue button labeled 'Activate Account' is at the bottom, and a link labeled 'Back to Login' is below it.

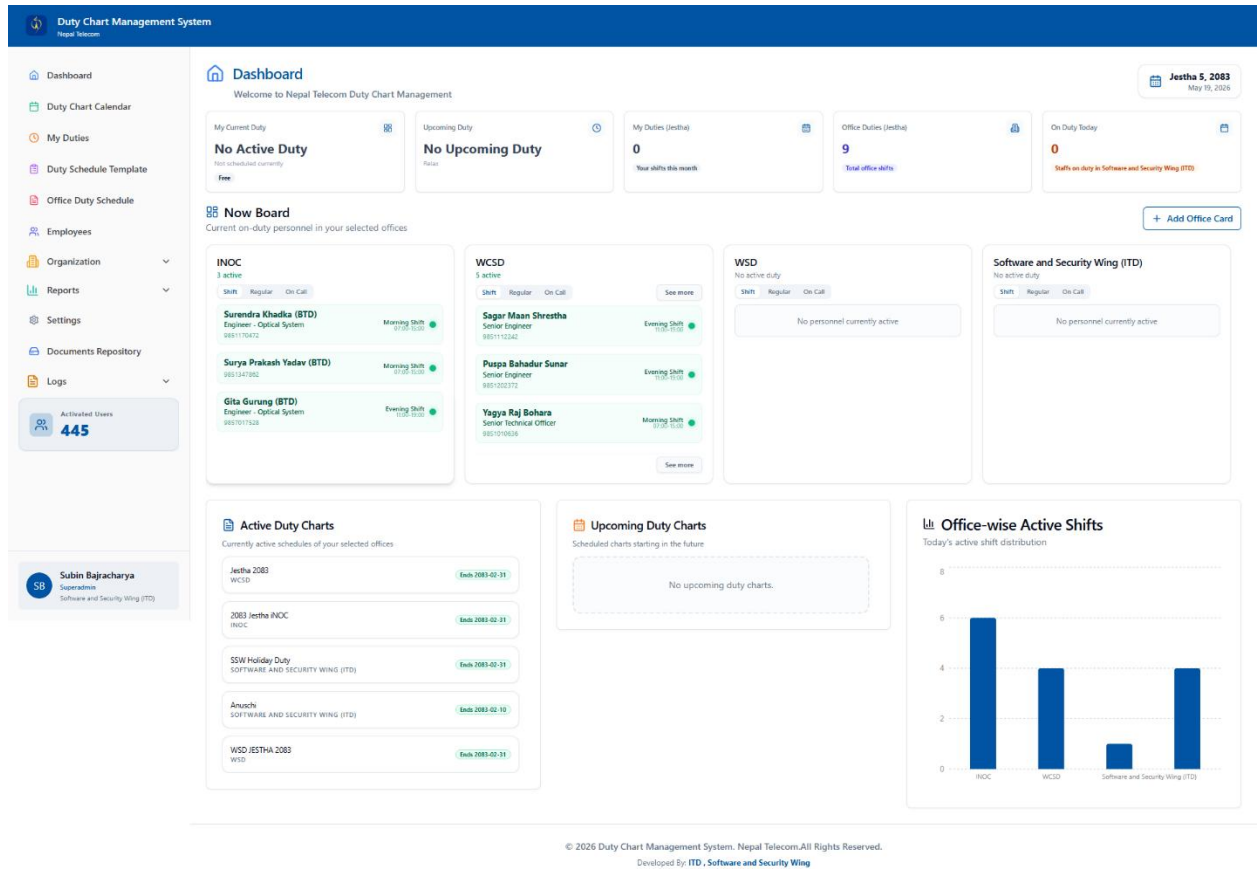

Set The New password and fill up the Working Office and Designation/Position information.

If the account for DCMS is created by the Office Admin. In such cases, employees need to click forget password to set the new password and login in the system.

Step 5: Login in the System

After successful registration, employees can log into the system.

2. Dashboard Page

The **Dashboard Page** is the main landing page of the **Duty Chart Management System**. It provides users with a quick overview of:

1. Current duty status
2. Upcoming duties
3. Office duty statistics
4. Active personnel
5. Duty charts
6. Shift distribution reports

This page helps supervisors and employees monitor ongoing and scheduled duties efficiently.

The dashboard is divided into the following major sections:

2.1. Summary Cards

My Current Duty: Displays the currently assigned duty with duty status, Shift Timing and Duty Availability

Upcoming Duty: Displays future scheduled duty information including Upcoming shift, Scheduled time and Duty readiness

My Duties (Current Month): Shows the number of duties assigned during the current month.

Office Duties: Displays the total number of office shifts.

On Duty Today: Shows the number of personnel currently active in employees' Office.

2.2. Now Board

Located on the upper-right side of the dashboard which allows users to add office-specific monitoring cards to the dashboard.

Steps

1. Click + **Add Office Card**
2. Select the desired office
3. Save changes

The selected office will appear in the “Now Board” section. Each office panel contains:

- Office name
- Number of active personnel
- Shift categories
- Employee details

2.3. Active-Duty Charts

Displays all currently active-duty schedules of the office added in the New Board Section. The information included Duty chart name, Associated office and end date.

2.4. Upcoming Duty Charts

Shows duty charts scheduled to start in the future office added in the New Board Section. It will help supervisors prepare upcoming shift schedules.

If No Future Duty Exists

The system displays:

- **No upcoming duty charts**

2.5. Office-wise Active Shifts Report

Displays a graphical report of active shifts of the office added in the New Board Section.

3. Create a Duty

In the Duty Chart Management System, creating a duty involves three main processes:

- Creating an **Office Duty Schedule**
- Creating a Duty Chart and assigning employees to the **Duty Chart**
- Approving The Duty Chart

3.1. Creating an Office Duty Schedule

The screenshot displays the 'Duty Chart Management System' interface. On the left is a sidebar with navigation links: Dashboard, Duty Chart Calendar, My Duties, Duty Schedule Template, Office Duty Schedule, Employees, Organization, Reports, Settings, Documents Repository, and Logs. Below these is a box showing 'Activated Users 444'. The main content area is titled 'Office Duty Schedule' with the subtitle 'Define shift times and assign them to specific offices.' It contains a form to 'Add Duty Schedule for Office' with fields for 'Schedule Name *' (set to 'Evening Shift'), 'Office *' (set to 'Software and Security Wing (ITD)'), 'Shift Alias / Code' (set to 'ES'), 'Shift Type' (set to 'Shift'), 'Start Time *' (11:00 AM), and 'End Time *' (07:00 PM). A 'Create Duty Schedule' button is at the bottom right of the form. To the right of the form is a 'Schedules' section titled 'Existing shifts for the selected office' with a dropdown menu set to 'Software and Security Wing (ITD)'. It lists six schedules: 'Evening Shift' (12:00:00 - 19:00:00), 'Holiday Duty' (09:00:00 - 17:00:00), 'Morning Shift' (07:00:00 - 14:00:00), 'Test Schedule' (16:45:00 - 17:00:00), 'WFH Late Evening' (19:00:00 - 23:00:00), and 'WFH Night' (23:00:00 - 07:00:00). Each schedule has edit and delete icons. The footer shows '© 2026 Duty Chart Management System. Nepal Telecom. All Rights Reserved.' and 'Developed By: ITD, Software and Security Wing'.

Before creating a new duty, the office admin must first create an Office Duty Schedule.

To create an office duty schedule, users should click the Office Duty Schedule menu from the sidebar navigation panel.

The Office Duty Schedule module is used to define and manage office-specific shift schedules.

Administrators can:

- Create office duty schedules
- Define shift timings
- Assign schedules to offices
- Manage existing schedules
- Edit or delete schedules

This module helps maintain organized shift operations across departments and offices.

The page contains two main sections:

Section	Purpose
Add Duty Schedule for Office	Create new office schedules
Schedules	View and manage existing schedules

The users can either create a new Duty Schedule or can use existing schedule template.

To create an Office Schedule, from the available Schedule Template,

Steps

- Click the dropdown menu
- Select a schedule template

Example

- Morning Shift
- Evening Shift
- Holiday Duty

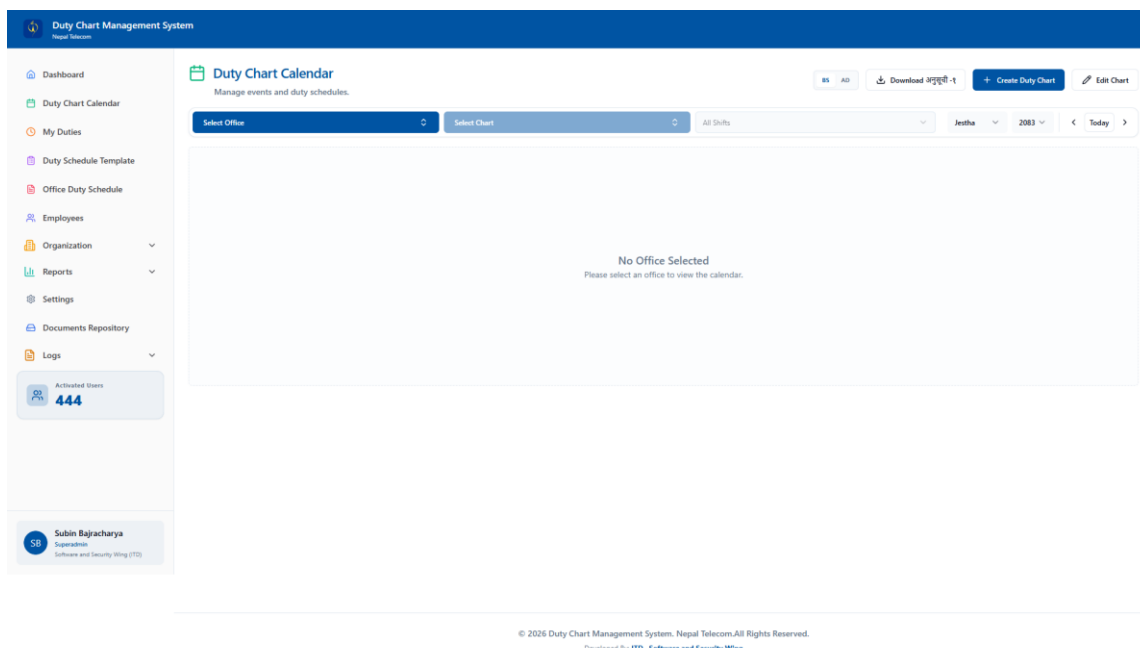

And create a Duty Schedule.

If the required schedule template does not exist, Users need to click a Add New Schedule. Then Users need to:

- **Enter Shift Alias / Code:** Define a short code or abbreviation for the shift
- **Select Shift Type:** Define the category of the schedule. Examples: Shift, Regular, On Call, Holiday Duty
- **Set Start Time:** Define when the shift begins. (Time Format: Hour (HH), Minute (MM), AM/PM)
- **Set End Time:** Define when the shift ends.
- **Create Duty Schedule:** After filling in all required information, click Create Duty Schedule to create a new schedule of the office

The users can edit/delete the created schedule of their office and view the schedule of other offices.

3.2. Create a Duty Chart

To create a **Duty Chart**, users need to click the **Duty Chart Calendar** menu from the sidebar navigation panel. The Duty Chart Calendar interface will appear as shown in the image.

To proceed with creating a new Duty Chart:

1. Click the **Create Duty Chart** button.
2. After clicking the button, the Duty Chart creation interface will open as shown below.

In Duty Chart creation interface,

- Select the office for which the duty chart will be created. Note: Office Duty Schedule must already exist for the selected office.
- Enter the name of the duty chart.
- Define the status of the duty chart. Initially, the Duty Chart status should be in Draft Mode. The Draft mode saves the chart without sending notifications.
- Define the starting and end date of the duty chart.
- This section automatically displays available shifts created in the Office Duty Schedule module.
- Select the required Schedule

The Employee Assignment can be done in two ways

Excel Bulk Import

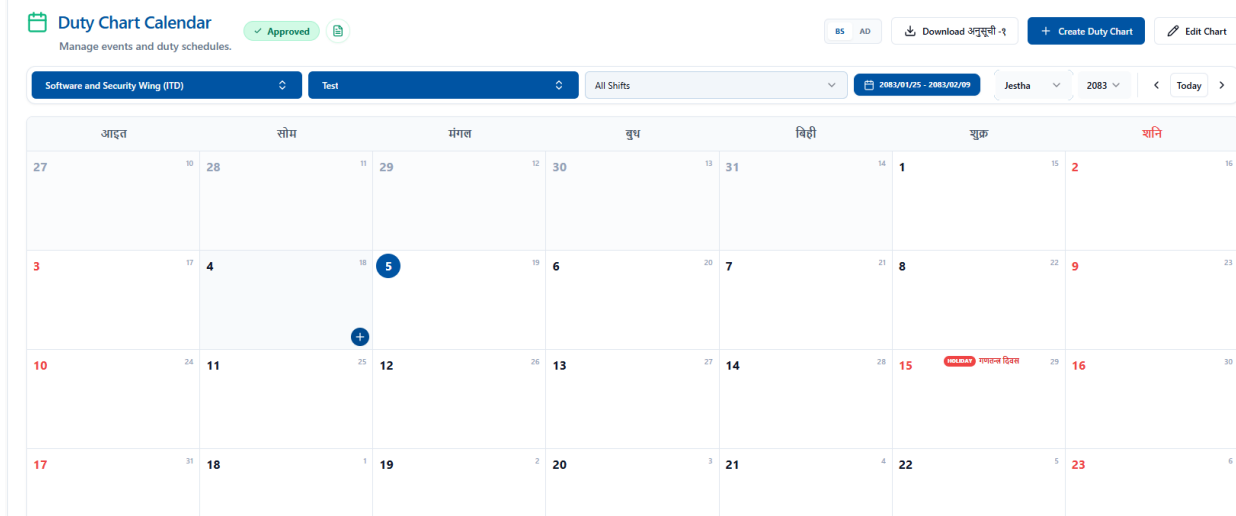

For Excel Bulk Import, Users need to Download a pre-formatted Excel template for duty assignment.

- Click Download Template (will be enabled only after selecting all the fields)
- Open the downloaded Excel file. The excel file will be prefilled with Duty Chart name and Selected Schedule Name
- Fill employee assignment information

- Select filled Excel file
- Click the upload area
- Browse and select the Excel file OR drag and drop the file into the upload area
- After completing all required information: Click the: Create button.
- The system creates the Duty Chart successfully.

Manual Assignment

If the user doesn't create a duty chart using Excel Bulk import, user needs to manually assign employees in the duty calendar.

To manually assign employees in the duty calendar, click the plus button in the Day Cell where the employee needs to be assigned. After clicking the plus button, below interface will open.

×

Create Duty

Assign an employee to this schedule for a specific date.

BS

AD

Effective: 01/25/2083 — 02/09/2083

Employee *

Select Employee

Select Shift

📅

Assignment Mode

Single

Range

Multiple

Assign to a specific date.

Date *

02/05/2083

📅

Shift: —

Cancel

Assign

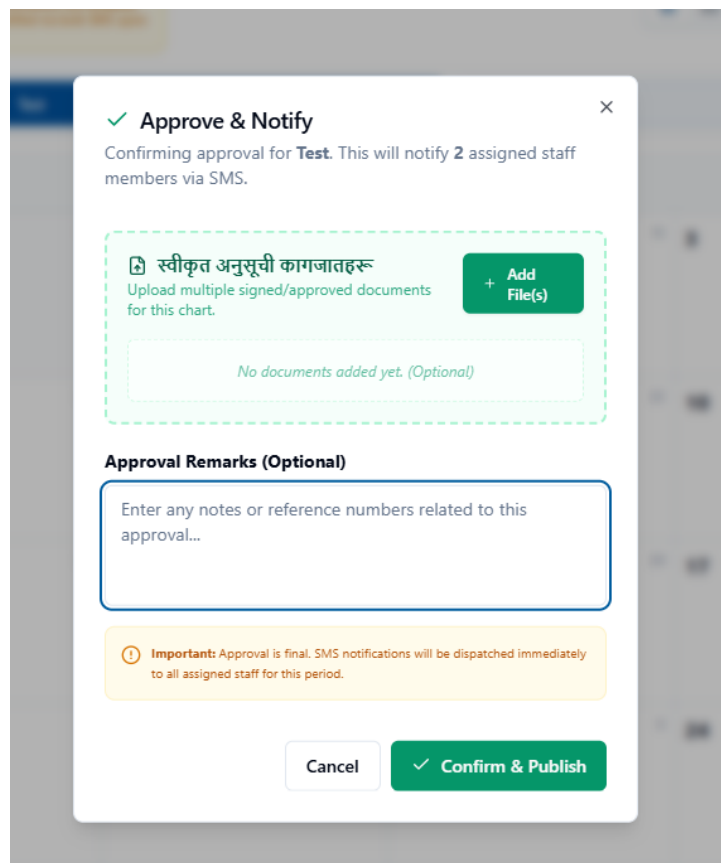

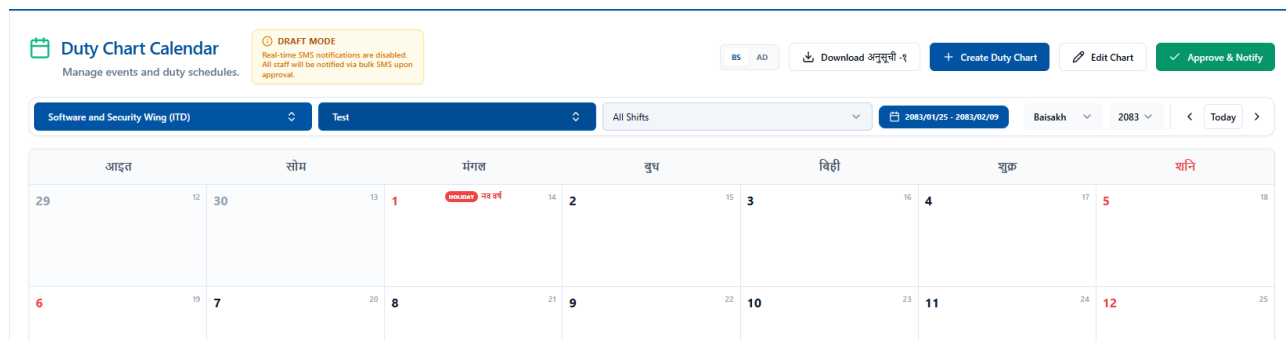

Users will have to:

- Select the Employee from the employee drop down.
- Select the Shift
- The employee can be assigned to Single Date, Date Range and in the Multiple Dates.

3.3 Approval of Duty Chart

After creating a duty chart, the office admin needs to approve the duty chart. For this, users need to download the अनुसूची-१ which is the standard format as per the Nepal Telecom's Duty chart निर्देशिका and get it approved from the concerned.

After this, users need to click the Approve and Notify Button in the Duty Chart Calendar and upload the approved अनुसूची-१ document and approved the Duty Chart. Once the Duty chart is approved, SMS notification will be pushed to all the assigned employees.

4. Notification to assigned Employee of Duty Chart

The Notification Service implemented in the Duty Chart Management System ensures that employees are promptly notified when duties are assigned and receive automated, timely reminders before their shift commences. It relies on the Nepal Telecom SMS Gateway for mobile messaging and offers administrator a real time monitoring interface

The system issue three distinct categories of SMS notifications.

Notification Category	Trigger Condition / Schedule	Eligible Shift Types	Recipient Audience
A. Duty Assignment Notification	Instantaneously upon assigning or updating a duty in a Duty Chart.	Shift, On-Call	Assigned Employee (must have a valid mobile number on profile).
B. Daily Duty Reminder	Automated daily digest triggered at 10:00 AM local time.	Shift, On-Call	Employees with duties starting after 6:00 PM (18:00) on the current day.
C. Urgent Hourly Reminder	Automated pre-shift check triggered every minute .	Shift, On-Call	Employees whose shifts start in approx. 1 hour (45–75-minute window).

Note: SMS are pushed only to Duty having a shift type like Shift and on call.

5. Report Generation Module

The system is designed to compile complex duty schedules, shifts and attendance patters into Nepal Telecom official Reports, specially conforming to the Standardized अनुसूची -१ and अनुसूची २ report according Nepal Telecom Shift Duty निर्देशिका.

5.1 Duty Report (अनुसूची - १)

Conforms to of Nepal Telecom's shift duty निर्देशिका. It complies and lists which staff members are scheduled to perform shifts day-by-day.

The screenshot shows the 'Duty Report (अनुसूची - १)' page in the 'Duty Chart Management System'. The left sidebar contains navigation links: Dashboard, Duty Chart Calendar, My Duties, Duty Schedule Template, Office Duty Schedule, Employees, Organization, Reports (with a sub-menu for Duty Report (अनुसूची-१), Duty Report (अनुसूची-२), and Total Duty Analysis), Settings, Documents Repository, and Logs. The main content area has a 'Report Criteria' section with filters for Duty Chart (Select Duty Chart), Shift (All Shifts), Date Range (01/18/2083 to 02/17/2083), Employee (Select Employee), and a 'Group by Employee' checkbox. Below this is a 'Report Preview' section with a message: 'Ready to generate report. Configure your report criteria above and click "Load Preview" to see the results.' The footer shows the user 'Subin Bajracharya' and the copyright notice '© 2026 Duty Chart Management System, Nepal Telecom. All Rights Reserved. Developed By: ITD, Software and Security Wing'.

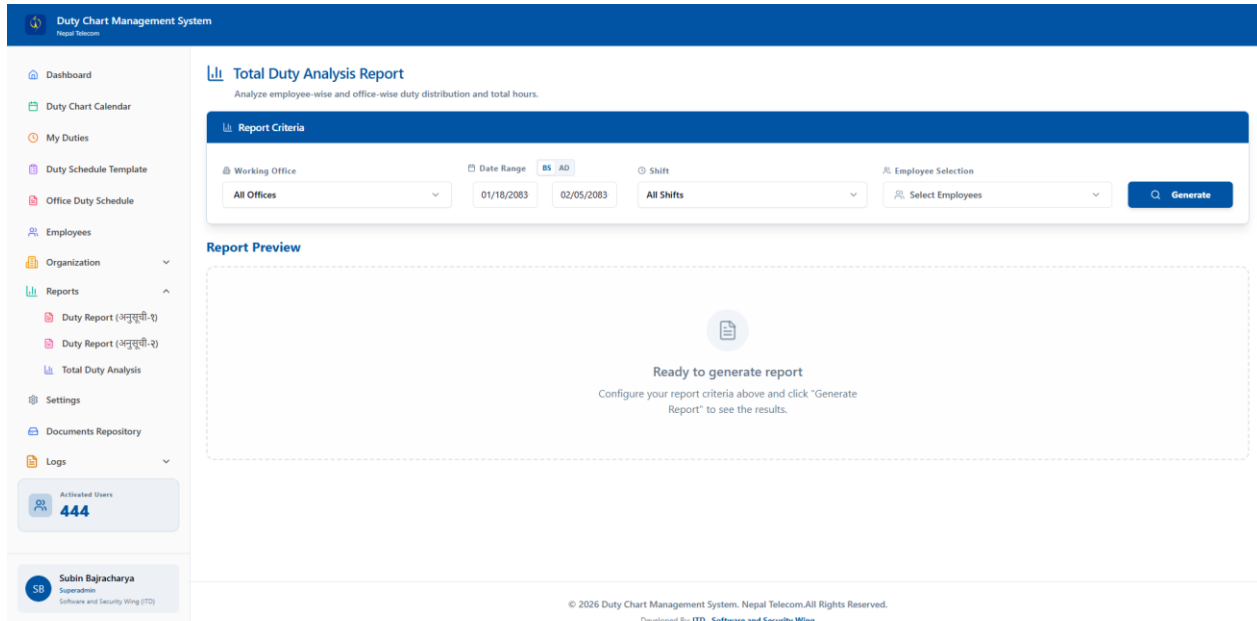

5.2 Duty Report (अनुसूची - २)

Conforms to अनुसूची - २ of Nepal Telecom's shift duty निर्देशिका. It acts as an audit trail of completed shifts, helping department managers verify that shifts were properly executed before approving allowances or payroll.

This screenshot is identical to the one for 'अनुसूची - १', showing the same interface for generating a 'Duty Report (अनुसूची - २)'. The layout, navigation sidebar, and main content area are the same, with the only difference being the report title in the header of the main content area.

5.3 Total Duty Assignment Report

An analytical dashboard and report engine built to give department heads, office administrators, and directors a quantitative breakdown of total duties, overall load distribution, and actual man-hours worked.

5.4 My Duties Page

The My Duties page (is a personalized portal designed specifically for employees to track, audit, and preview their own assigned shift rosters without being distracted by larger departmental schedules.
